Driving force behind the Electronic Service Initiative

- Provision of efficient, cost-effective and quality services, taking into account of the best modern technology
- Improving Hong Kong's competitiveness and environmental performance

Integrated Companies Registry Information System

Phase I (live run on 28.2.2005)

- E-processing
- E-search on 24x7 basis

Phase II

(in phases starting from early 2011)

- E-incorporation
- E-filing
- E-monitor
- E-reminder

Electronic Incorporation of Companies

- Form-based
- Non-mandatory
- User-friendly interactive interfaces, messages and instructions

Electronic Incorporation of Companies

- Secure IT infrastructure
- Enhance accuracy of data through on-line validations
- Signature – e-certificate or PIN

Electronic Incorporation of Companies

- Reduce incorporation time from four working days to less than one day
- One-stop service - obtain electronic certificate of incorporation and business registration certificate upon incorporation
