Launch of New Search Functions of Company Search Mobile Service

This circular is to announce the launch of new search functions of the Company Search Mobile Service (www.mobile-cr.gov.hk).

Company Search Mobile Service

2. Since June 2012, members of the public may conduct searches on company information anytime and anywhere using their smartphones and mobile devices through the Companies Registry's Company Search Mobile Service (CSMS). The search results can also be saved using the screen capture function of smartphones and mobile devices. Presently, company name search, document index search and company particulars search are available. Users may place orders for company particulars reports and pay fees by credit cards online.
